THE HOME TEAM VICTORIOUS AT CHARLESTON.

Contest to Take Place at Augusta Tc-Day-Games in Other Citles.

Memphis had a walk over yesterday and won as she pleased by a score of 11 to 7. Gardner was put in the box for Charleston, and it only took our nine about two innings to get on to his delivery, after which they hammered him for one or more runs every inning until the seventh, when they quit scoring with a lead of four runs. Charleston failed to bunch her hits and was gcoze-egged until the fourth inning, when she made one run, which was increased by one more in the fifth inning. There was no time when the result was in doubt, except during the

seventh and eighth innings. In the seventh Conway his for one bag, went to third on Say's two-bagger, and scored on Gardner's single, Say going to third. Crowley's hit past second for one base let in Say and Gardner, Brosnan's hit to right field and Powell's to center, followed by Holland's to left field, brought in Urowley and Broman. Weyhing struck out, retiring the side with five runs and carrying the Charleston score up to seven against eleven for Memphis. In the eighth inning Say was on third, Gilman on second, when Gardner came to the bat. A two-bagger would have brought in two men and made thirgs blue for Memphis. Black evidently realized the danger, for he sent Gardner to his seat on strikes and Crowley went out on a grounder to third. In the ninth inning Charleston got another goose egg and Memphis won without playing her last inning. Black struck out ten men and p ay d w thout an error, making his wretched perf rmance of Monday all the more suspicious. Broughton played a faultiess game at The paring this week makes one thing decidedly clear. The Charleston team has been underrated Their battieg is as good as any club's in the lesgue, barring Augus'a and Nashville, and with another good bat-tery to change with Weyhing and Conway they are liable to hold their

Nashville vs. Savannah

IMPROIAL TO THE APPRAL. Nashvilla, Tann. April 30.—In the last of the series of Nashville-Savannah games, with Baker and Schellhasse as the battery, Nashville won hardily by a score of 12 to 6, thus securing two out of three games, the remaining game of the series being a tie. This result, in the face of very unfavorable treatment at the hands of the umpire, is considered very significant, and shows most conclusively that the Nashville tesm, when given a fair showing, is equal, if not su-perior, to the leaders. The Nashville people should feel much better satis-ned now that their team has gotten down to work, and may confidently expect great things of them when they return home. Battery for Gayoso, Astor and Henderson; for Peabody, Fle ning and Smith. THE Cincinnatis made four hi's in different innings yesterday, and, although Ramsey gave nise men first on balls, the sharp fielding of the visitors prevented the Red Stockings from scoring but once. The Louis-villes by making five hits in the third inning, together with Mullane's wild pitching, succeeded in getting seven hooted and Ramsey was very much annoyed by his decisions on balls and strikee. THE BROKEN LEVERS.

ONE SEA OF WATER FOR A HUN.

Slock Huddled on Knells, Levees and

by an APPEAL man immediately after he left the boat. Mr. Saughter says it is a sea of water after Cat Island is passed, and that from that point on there are not more than 300 acres of farming land altogether on either side of the river yisible to the eye from the hurricane deck. The further he went the more dismal the prospect became for the whole distance. of 110 miles The first break in the levee on the Mississippi side is just below Austin. It is about 200 feet wide, and the water running through it is filling up the country very fast. The next is below Friars Point three or four miles, besides an other, already mentioned, at the Jefferson place, about ten miles further down. A very disastrous break, the first on the Arkansas side, is at the Henning place, about twelve miles below Helena, and has overflowed the Westover plantation, which formerly belonged to the Apperson estate, but is now in charge of Justice Slaughter, trustee for the Bolton bequest. He found fitty-two mules and about fifty head of cartle on a knoll not more than half an acre in extent, the banks of which were rapidly sloughing off on account of winds from the inside. The s eck was taken off in a barge which was towed down by a little boat procured at Hel ena. The regular boats will not land, for fear of coming in contact with the levees. The water on the inside of the levee on the Westmer plantation, which contains over 4000 acres, was about 2 feet lower than on the outside, but it rose about 12 inches during Thursday night, though the main river re-mained stationary. So far the loss of stock has been small. The planters are in good spirits and expect to be able to begin preparations for a cotton crow in about two weeks as they be SEND to Memphis Fioral Company for list and price-current o' plants. Have largest stock in town. Come out and see for yourself. South gate Elm-

is strictly a vegetable compound, and is the product of medical science and practical ex-perience directed toward the benefit of crop in about two weeks, as they be-lieve the waters will subside by that time. The negroes, especially, rre cheerful and hopeful. As a rule, farm

HER BEST PRIEND DR. J. BRADFIELD'S I EMALE REGULATO

This famous remedy most happily meets the demand of the age for woman's neculiar and multiform afflictions. It is a remedy for WOMAN ONLY, and for one SPECIAL CLASS of her diseases. It is a specific for certain diseased conditions of the womb, and proposes to so control the Menstrum Function as to resulate all the derangements and irregularities of Woman's

MONTHLY SICKNESS. Its prescrietors claim for it no other medical property; and so doubt the fact that this medicine does positively possess such controlling and regarding powers is simply to discredit the voluntary testimony of thousands of living winnesses who are to-day exulting in the restoration to sound health and happiness.

BRADFIELD'S FEMALE REGULATOR

WOMAN'S BEST FRIEND

Bacause it controls a class of functions the various derangements or which cause more ill health than all other causes combined, and thus rescues her from a long train of afflictions which sorely embitter has life and prematuraly and her existence. Oh, what a multitude of living witnesses can testify to its charming effects! Woman, take to your confidence this
